1 INTRODUCTION

This Statement of Investment Principles (“the Statement”) has been prepared by the Trustees of the Lincoln Electric (UK) Limited Retirement and Death Benefits Scheme (“the Scheme”) in accordance with Section 35 of the Pensions Act 1995, as amended, and its attendant Regulations.

The Statement outlines the principles governing the investment policy of the Scheme and the activities undertaken by the Trustees to ensure the effective implementation of these principles.

In preparing the Statement, the Trustees have:

- obtained and considered written advice from a suitably qualified individual, employed by their investment consultants, Mercer, whom they believe to have a degree of knowledge and experience that is appropriate for the management of their investments; and
- consulted with the Sponsoring Employer, although they affirm that no aspect of their strategy is restricted by any requirement to obtain the consent of the Sponsoring Employer.

The advice and the consultation process considered the suitability of the Trustees’ investment policy for the Scheme.

The Trustees will review the Statement formally at least every three years to coincide with the triennial Actuarial Valuation or other actuarial advice relating to the statutory funding requirements. Furthermore, the Trustees will review the Statement without delay after any significant change in investment policy. Any changes made to the Statement will be based on written advice from a suitably qualified individual and will follow consultation with the Sponsoring Employer.

2 INVESTMENT OBJECTIVES

The Trustees' primary investment objective for the Scheme is to achieve an overall rate of return that is sufficient to ensure that assets are available to meet all liabilities as and when they fall due.

In doing so, the Trustees also aim to maximise returns at an acceptable level of risk taking into consideration the circumstances of the Scheme.

The Trustees have also received confirmation from the Scheme Actuary during the process of revising the investment strategy that their investment objectives and the resultant investment strategy are consistent with the actuarial valuation methodology and assumptions used in the Statutory Funding Objective.

3 INVESTMENT RESPONSIBILITIES

3.1 TRUSTEES' DUTIES AND RESPONSIBILITIES

The Trustees are responsible for setting the investment objectives and determining the strategy to achieve the objectives.

The duties and responsibilities of the Trustees include, but are not limited to, the following tasks and activities:

- The regular approval of the content of the Statement
- The appointment and review of the Investment Manager and investment adviser
- The assessment and review of the performance of each investment manager
- The setting and review of the investment parameters within which the investment managers can operate
- The assessment of the risks assumed by the Scheme at a total scheme level and also manager by manager
- The approval and review of the asset allocation benchmark for the Scheme
- The compliance of the investment arrangements with the principles set out in the Statement

3.2 INVESTMENT ADVISER'S DUTIES AND RESPONSIBILITIES

The Trustees have appointed Mercer as the investment adviser to the Scheme. Mercer provides advice as and when the Trustees require it, as well as raising any investment-related issues, of which it believes the Trustees should be aware. Matters on which Mercer expects to provide advice to the Trustees include the following:

- Setting of investment objectives
- Determining investment strategy and asset allocation
- Determining an appropriate investment structure
- Liaising with JLT Investment Management ("JLT IM") to determine funds and investment managers that are suitable to meet the Trustees' objectives
- Setting cashflow management (investment and withdrawal) policies (see Appendix 2)

Section 3.3 describes the responsibilities of JLT IM as investment manager to the Scheme.

The Trustees may seek advice from Mercer with regard to both strategic and tactical investment decisions (see Section 4 – Investment Strategy); however, they recognise that they retain responsibility for all such decisions, including those that concern investments and disinvestments relating to cashflows (see Appendix 2). Mercer may be proactive in advising the Trustees regarding tactical investment decisions; however, there is no responsibility placed on Mercer to be proactive in all circumstances.

The Trustees monitor the performance of the Scheme's investment managers against their benchmarks.

Mercer makes a fund based charge. This charge covers the services of both JLT IM and Mercer as specified within the Investment Management Agreement and the Implemented Investment Consultancy Services Agreement.

Any additional services provided by Mercer will be remunerated primarily on a time-cost basis.

In particular, Mercer does not receive commission or any other payments in respect of the Scheme that might affect the impartiality of their advice, and as noted below, any discounts negotiated by JLT IM with the underlying investment managers are passed on in full to the Scheme.

The Trustees are satisfied that this is the most appropriate adviser remuneration structure for the Scheme.

Mercer is authorised and regulated by the Financial Conduct Authority ("FCA").

3.3 ARRANGEMENTS WITH INVESTMENT MANAGERS

The Trustees are long term investors and do not look to change the investment arrangements on a frequent basis.

The Trustees, after considering appropriate investment advice, have appointed JLT IM as investment manager to the Scheme. JLT IM was first appointed in August 2015.

The key duty of JLT IM is to select investment managers suitable to each mandate within the Trustees' agreed asset allocation.

Investment managers are appointed by JLT IM based on their capabilities and, therefore, their perceived likelihood of achieving the expected return and risk characteristics required for the asset class being selected.

Furthermore, JLT IM select the underlying investments managers based upon their knowledge of the Scheme (its understanding of the Scheme's objectives / goals and the preferences of the Trustees) and the investment manager research undertaken by the Mercer Manager Research Team ("MMRT").

JLT IM will only invest in pooled investment vehicles. The Trustees therefore accept that they cannot specify the risk profile and return targets of the manager, but pooled funds are chosen with appropriate characteristics to align with the overall investment strategy.

JLT IM does not select investment managers / funds with a view to holding these for a pre-specified time period. Instead, these are selected with a view to how these fit with and assist the Trustees in meeting their long-term strategic objectives. JLT IM will only replace an investment manager / fund if:

- The investment manager changes its performance objective(s), the appointment will be reviewed to ensure that it remains appropriate.
- The strategic objectives of the Scheme change such that the offering provided by the investment manager / fund is no longer appropriate in context of the Trustees achieving their long-term strategic objective; or,
- The MMRT's future expectations on the likelihood of the investment manager / fund achieving its performance objective(s) has deteriorated.

JLT IM will therefore contract with and appoint underlying investment managers to manage the Scheme's assets on behalf of the Trustees.

JLT IM will also manage the asset allocation to ensure it is in line with the allocation defined in the IMA, and its tolerances.

JLT IM will monitor the underlying investment managers to ensure their continuing appropriateness to the mandates given. If a manager is significantly downgraded by Mercer's Manager Research Team, JLT IM will replace that manager with a suitable, positively rated alternative.

The details of investment managers initially appointed by JLT IM are set out in Appendix 3, together with the details of each manager's mandate.

In particular, the underlying investment managers are responsible for all decisions concerning the selection and de-selection of the individual securities within the portfolios they manage.

In the case of multi-asset mandates, the underlying investment managers are also responsible for all decisions concerning the allocation to individual asset classes and changes in the allocations to individual asset classes.

All of the investment managers that will be sub-contracted by JLT IM will be authorised and regulated by the Prudential Regulation Authority ("PRA"), the FCA or both.

The underlying investment managers are remunerated by ad valorem charges based on the value of the assets that they manage on behalf of the Scheme.

None of the underlying managers in which the Scheme's assets are invested have performance based fees which could encourage the manager to make short term investment decisions to hit their profit targets.

The Trustees therefore considers that the method of remunerating fund managers is consistent with incentivising them to make decisions based on assessments of medium to long-term financial and non-financial performance of an issuer of debt or equity. By encouraging a medium to long-term view, it will in turn encourage the investment managers to engage with issuers of debt or equity in order to improve their performance, and the performance of the underlying investee companies, over the medium to long-term.

The Trustees accept that they have limited influence on the charging structure of the pooled funds in which the Scheme is invested, but is satisfied that the ad-valorem charges for the different underlying funds are clear and are consistent with each fund's stated characteristics. The Trustees are therefore satisfied that this the most appropriate basis for remunerating the underlying investment managers and is consistent with the Trustees' policies as set out in this SIP.

JLT IM makes a fund based charge for the services it provides. This charge is specified in the contractual agreement between the Trustees and JLT IM.

JLT IM does not receive commission or any other payments in respect of the Scheme that might affect the impartiality of its actions and any discounts negotiated by JLT IM with the underlying managers are passed on in full to the Scheme.

JLT IM is authorised and regulated by the FCA.

The Trustees are satisfied that this is the most appropriate basis for remunerating managers.

3.4 SUMMARY OF RESPONSIBILITIES

A summary of the responsibilities of all relevant parties, including the Scheme Actuary and the scheme administrators, so far as they relate to the Scheme's investments, is set out at Appendix 4.

4 INVESTMENT STRATEGY

4.1 SETTING INVESTMENT STRATEGY

The Trustees have determined their investment strategy after considering the Scheme's liability profile and requirements of the Statutory Funding Objective, their own appetite for risk, the views of the Sponsoring Employer on investment strategy, the Sponsoring Employer's appetite for risk, and the strength of the Sponsoring Employer's covenant. The Trustees have also received written advice from their Investment Adviser.

The basis of the Trustees' strategy is to divide the Scheme's assets between a "growth" portfolio, comprising assets such as equities and property, and a "stabilising" portfolio, comprising assets such as bonds. The growth-stabilising allocation is set having regard to the Scheme's liability profile, i.e. the split of liabilities between active, deferred and pensions and also the overall required return objective of the Scheme's assets, which is determined by the funding objective and current funding level. Thus, the Trustees regard the basic distribution of the assets to be appropriate for the Scheme's objectives and liability profile. The Trustees have established a benchmark allocation to each asset class within each strategic asset allocation, which is set out in Appendix 1.

In respect of the investment of contributions and any disinvestments to meet member benefit payments, the Trustees have decided on a policy to rebalance the assets in accordance with their overall strategy. This policy is set out in Appendix 2.

4.2 INVESTMENT DECISIONS

The Trustees distinguish between three types of investment decision: strategic, tactical and stock-level.

Strategic Investment Decisions

These decisions are long-term in nature and are driven by an understanding of the objectives, needs and liabilities of the Scheme.

The Trustees take all such decisions themselves. They do so after receiving written advice from their investment adviser and consulting with the Sponsoring Employer. Examples of such decisions and of tasks relating to the implementation of these decisions include the following:

- Setting investment objectives
- Determining the split between the growth and the stabilising portfolios
- Determining the allocation to asset classes within the growth and stabilising portfolios
- Determining the Scheme benchmark
- Reviewing the investment objectives and strategic asset allocation

Tactical Investment Decisions

These decisions are short-term and based on expectations of near-term market movements. Such decisions may involve deviating temporarily from the strategic asset allocation and may require the timing of entry into, or exit from, an investment market or asset class.

These decisions are the responsibility of the Trustees. However, where such decisions are made within a pooled fund, they are the responsibility of the investment manager of the fund.

Stock Selection Decisions

All such decisions are the responsibility of the investment managers of the pooled funds in which the Scheme is invested.

4.3 TYPES OF INVESTMENTS TO BE HELD

The Trustees are permitted to invest across a wide range of asset classes, including, but not limited to, the following:

- UK and overseas equities
- UK and overseas government bonds, fixed and inflation-linked
- UK and overseas corporate bonds
- Convertible bonds
- Property
- Commodities
- Hedge funds
- Private equity
- High yield bonds
- Emerging market debt
- Diversified growth
- Liability driven investment products
- Cash

All the funds in which the Scheme invests are pooled and unitised. The use of derivatives is permitted by the guidelines that apply to the pooled funds. Details relating to the pooled funds can be found in Appendix 3.

4.4 FINANCIALLY MATERIAL CONSIDERATIONS

The Trustees consider many risks which they anticipate could impact the financial performance of the Scheme's investments over the Scheme's expected lifetime. Such risks are set out in the next section of this statement.

The Trustees recognise that environmental, social and corporate governance ("ESG") factors, such as climate change, can influence the investment risk and return outcomes of the Scheme's portfolio and it is therefore in members' and the Scheme's best interests that these factors are taken into account within the investment process.

The Trustees further recognise that investing with a manager which approaches investments in a responsible way and takes account of ESG related risks may lead to better risk adjusted performance results as omitting these risks in investment analysis could skew the results and underestimate the level of overall risk being taken. Therefore, other factors being equal, the Trustees would seek to invest in funds which incorporate ESG principles.

In setting their investment strategy, the Trustees have prioritised funds Scheme which provide actively managed diversification across a wide range of investment markets and consider the financially significant benefits of these factors to be paramount.

The Trustees note that ESG considerations are not paramount to the first level decision making process within the funds which provide either actively managed diversification or leveraged liability protection. However, in the actively managed Diversified Growth Funds in which the Scheme invests, whilst managers typically do not put ESG considerations at the heart of the asset allocation decision, they will embed ESG considerations into the management of the underlying asset classes where it is appropriate to do so.

The Trustees will also receive ESG scores provided by the Investment Consultant in relation to the funds in which the Scheme is invested and will monitor how these develop over time.

The Trustees are therefore satisfied that ESG factors are appropriately reflected in the overall investment approach.

4.5 NON - FINANCIAL MATTERS

The Trustees have determined that the financial interests of the Scheme members are their first priority when choosing investments.

They have decided not to consider non-financial considerations, such as ethical views, or to take members' preferences into account when setting the investment strategy for the Scheme.

4.6 STEWARDSHIP

The Scheme is invested solely in pooled investment funds. The Trustees' policy is to delegate responsibility for engaging with, monitoring investee companies and exercising voting rights to the pooled fund investment managers and expects the investment managers to use their discretion to act in the long term financial interests of investors.

If the Trustees are specifically invited to vote on a matter relating to corporate policy, they would exercise their right in accordance with what they believe to be the best interests of the majority of the Scheme's membership.

JLT IM and the MMRT receive regular reporting from the underlying investment managers / funds which includes information on the voting activity undertaken on behalf of the pooled fund. This information is reviewed on a periodic basis to ensure that the actions taken by the investment manager are consistent with its stated policies and that these are in the best long-term interests of the pooled fund. If required, the MMRT will raise any concerns directly with the investment manager.

5 RISK

The Trustees are aware, and seek to take account of a number of risks in relation to the Scheme's investments, including the following:

Under the Pensions Act 2004, the Trustees are required to state their policy regarding the ways in which risks are to be measured and managed. These are set out below.

Solvency Risk and Mismatching Risk

- These are measured through a qualitative and quantitative assessment of the expected development of the assets relative to the liabilities.
- These are managed by setting a scheme-specific strategic asset allocation with an appropriate level of risk.

Manager Risk

- This is assessed as the expected deviation of the prospective risk and return, as set out in the managers' objectives, relative to the investment policy.
- It is measured by monitoring the actual deviation of returns relative to the objective and factors supporting the managers' investment process, and by appointing JLT IM to monitor and replace any managers where concerns exist over their continued ability to deliver the investment mandate.

Liquidity Risk

- This is monitored according to the level of cashflows required by the Scheme over a specified period.
- It is managed by holding an appropriate amount of readily realisable investments. The Scheme's assets are invested in pooled funds which are readily realisable.

Political Risk

- This is measured by the level of concentration in any one market leading to the risk of adverse influence on investment values arising from political intervention.
- It is managed by regular reviews of the investments and through investing in funds which give a wide degree of diversification.

Corporate Governance Risk

- This is assessed by reviewing the Scheme's investment managers' policies regarding corporate governance.
- It is managed by delegating the exercise of voting rights to the managers, who exercise this right in accordance with their published corporate governance policies. Summaries of these policies are provided to the Trustees from time to time and take into account the financial interests of the shareholders, which should ultimately be to the Scheme's advantage.

Sponsor Risk

- This is assessed as the level of ability and degree of willingness of the sponsor to support the continuation of the Scheme and to make good any current or future deficit.
- It is managed by assessing the interaction between the Scheme and the sponsor's business, as measured by a number of factors, including the creditworthiness of the sponsor and the size of the pension liability relative to the sponsor. Regular updates on employer covenant are provided to the Trustees by senior staff of the sponsor.

Legislative Risk

- This is the risk that legislative changes will require action from the Trustees so as to comply with any such changes in legislation.
- The Trustees acknowledge that this risk is unavoidable but will seek to address any required changes so as to comply with changes in legislation.

Credit Risk

- This is the risk that is associated with the inability of a borrower to repay, in full or part the monies which it owes to a creditor.
- The Trustees acknowledge that the assessment of credit risk on individual debt instruments is delegated to the investment manager. The Trustees will however ensure that they are comfortable with the amount of risk that the Scheme's investment manager takes.

Currency Risk

- This is the risk that occurs when the price of one currency moves relative to another (reference) currency. In the context of a UK pension scheme, the scheme may be invested in overseas stocks or assets, which are either directly or indirectly linked to a currency other than Sterling. There is a risk that the price of that overseas currency will move in such a way that devalues that currency relative to Sterling, thus negatively impacting the overall investment return.
- The Trustees acknowledge that currency risk related to overseas investments is delegated to the underlying investment managers.

Interest rate and Inflation risk

- This is the risk that an investment's value will change due to a change in the level of interest rates and inflation rates. This affects debt instruments more directly than growth instruments.
- The Trustees acknowledge that the interest rate and inflation rate risk related to individual debt instruments, and particularly liability driven instruments (LDI), is managed by the underlying investment managers through a combination of strategies, such as diversification, duration and yield curve management, and hedging via swaps, particularly where LDI is involved.

ESG Risk

- This is the risk that Environmental, Social or Corporate Governance concerns, including climate change, have a financially material impact on the return of the Scheme's assets.
- The Trustees manage this risk by investing in well-respected investment managers where ESG principles are an established part of the investment decision making process and by regularly reviewing the ESG scoring of the investment consultant's scoring of the Scheme's managers.

6 MONITORING OF INVESTMENT ADVISER AND MANAGERS

6.1 INVESTMENT ADVISER

The Trustees continually assess and review the performance of their adviser in a qualitative way. In doing so, the Trustees will take in to account the objectives it set for its investment adviser in the document entitled “Outcome of the CMA review: Setting Objectives for Investment Consultants”, which was signed and formally adopted by the Trustee on 8 November 2019.

6.2 INVESTMENT MANAGERS

The Trustees receive quarterly monitoring reports on the performance of the underlying investment managers from Mercer on a quarterly basis, which presents performance information over 3 months, 1 year and 3 years. The reports show the absolute performance, performance against the manager’s stated target performance (over the relevant time period) on a net of fees basis. It also provides returns of market indices so that these can also be used to help inform the assessment of the underlying managers’ performance.

The Trustees receive annual monitoring reports on the performance of the underlying investment managers from Mercer.

JLT IM, as Investment Manager has the role of replacing the underlying investment managers where appropriate. It takes a long-term view when assessing whether to replace the underlying investment managers, and such decisions would not be made based solely on short-term performance concerns. Instead, changes would be driven by a significant downgrade of the investment manager by Mercer’s Manager Research Team. This in turn would be due to a significant reduction in Mercer’s confidence that the investment manager will be able to perform in line with their fund’s mandate over the long term.

The reporting reviews the performance of the Scheme’s individual funds against their benchmarks, of the Scheme’s assets in aggregate against the Scheme’s strategic benchmark.

6.3 PORTFOLIO TURNOVER COSTS

The Trustees do not currently monitor portfolio turnover costs for the funds in which the Scheme is invested, although note that the performance monitoring which it receives is net of all charges, including such costs. Portfolio turnover costs means the costs incurred as a result of the buying, selling, lending or borrowing of investments.

The Trustees are also aware of the requirement to define and monitor targeted portfolio turnover and turnover range.

Given that the Scheme invests in a range of pooled funds, many of which invest across a wide range of asset classes, the Trustees do not have an overall portfolio turnover target for the Scheme.

7 CODE OF BEST PRACTICE

The Trustees note that in March 2017, the Pensions Regulator released 'Investment Guidance for Defined Benefit Pension Schemes.

The Trustees meet with its investment adviser on a regular basis, monitoring developments both in relation to the Scheme's circumstances and in relation to evolving guidance, and will revise the Scheme's investment approach if considered appropriate.

8 COMPLIANCE

The Scheme's Statement of Investment Principles and annual report and accounts are available to members on request.

A copy of the Scheme's current Statement plus Appendices is also supplied to the Sponsoring Employer, the Scheme's investment manager, the Scheme's auditors and the Scheme Actuary.

This Statement of Investment Principles, taken as a whole with the Appendices, supersedes all others and was approved by the Trustees.

Approved by the Trustees on 8th September 2020.

APPENDIX 1: ASSET ALLOCATION BENCHMARK

The Scheme's initial strategic asset allocation benchmark is set out below.

Asset Class	Strategic Allocation	Guideline Range
Growth Assets	68%	+/- 10%
Stabilising Assets	32%	+/- 10%

The asset allocation will be monitored by JLT IM so as to maintain it within the guideline ranges.

The policy for rebalancing and investment / disinvestment of cashflows is set out in Appendix 2.

Appendix 3 provides information about the funds in which the assets are invested.

APPENDIX 2: CASHFLOW AND REBALANCING POLICY

Where possible, cash outflows will be met from cash balances held by the Scheme and from income from the Scheme's investments in order to minimise transaction costs.

Investments or disinvestments should be applied in such a way as to bring the actual asset allocation back towards the Scheme's central benchmark asset allocation, as set out in Appendix 1.

The Trustees will review the cashflow policy from time to time to ensure that it remains appropriate taking into account changes in the Scheme's cashflow requirements.

For avoidance of doubt, this Statement will not be revised purely in relation to a change in cashflow policy.

APPENDIX 3: INVESTMENT MANAGER INFORMATION

The Scheme invests with JLT IM, whose key responsibility it to appoint suitable investment managers to each of the mandates within the Trustees' agreed investment strategy as set out in Appendix 1.

The tables below show the details of the mandate(s) with each manager.

GROWTH ASSETS

Manager / Fund	Benchmark	Objective	Dealing Frequency
Investec Diversified Growth	CPI	To outperform the benchmark by 5% p.a. (gross of fees) over rolling five year periods	Daily
Aberdeen Standard Global Absolute Return Strategies	6 Month GBP LIBOR	To outperform the benchmark by 5% p.a. (gross of fees) over rolling five year periods	Daily
Nordea Diversified Return Fund	1 Month LIBOR	To provide capital preservation over a three year horizon, targeting LIBOR + 4% p.a. (gross of fees) with less than half the volatility of global equities	Daily
Threadneedle Multi-Asset Fund	UK Base Rate	To outperform the UK Base Rate by at least 4% p.a. over a 5 to 7 year cycle gross of fees.	Daily
Pictet Multi Asset Portfolio	3 Month ICE LIBOR	To provide investors with a positive absolute return in excess of the benchmark in pound sterling over 12 month-rolling periods	Daily

STABILISING ASSETS

Manager / Fund	Benchmark	Objective	Dealing Frequency
Standard Life Corporate Bond	Merrill Lynch Sterling Non-Gilt All Stocks Index	To outperform the benchmark by 0.8% p.a. gross of fees	Daily

The assets for the underlying managers are hosted on an investment platform provided by Mobius Life Limited.

JLT IM will monitor the investment managers. If one of the managers is downgraded by Mercer's Manager Research Team to a REVIEW or SELL rating, that manager will automatically be replaced by JLT IM with a BUY rated alternative manager.

For avoidance of doubt, this SIP will not be updated solely in response to a replacement of one of the underlying investment managers.

APPENDIX 4: RESPONSIBILITIES OF PARTIES

TRUSTEES

The Trustees' responsibilities include the following:

- Reviewing at least triennially, and more frequently if necessary, the content of this Statement in consultation with the Investment Adviser and modifying it if deemed appropriate
- Reviewing the investment strategy following the results of each actuarial review, in consultation with the Investment Adviser and Scheme Actuary
- Appointing the Investment Manager(s) and custodian (if required)
- Assessing the quality of the performance and processes of the Investment Manager(s) by means of regular reviews of investment returns and other relevant information, in consultation with the Investment Adviser
- Consulting with the sponsoring employer regarding any proposed amendments to this Statement
- Monitoring compliance of the investment arrangements with this Statement on a continuing basis

INVESTMENT ADVISER

The Investment Adviser's responsibilities include the following:

- Participating with the Trustees in reviews of this Statement of Investment Principles
- Production of performance monitoring reports
- Advising the Trustees, at their request, on the following matters:
 - Through consultation with the Scheme Actuary, how any changes within the Scheme's benefits, membership, and funding position may affect the manner in which the assets should be invested
 - How any significant changes in the Investment Managers' organisation could affect the interests of the Scheme
 - How any changes in the investment environment could present either opportunities or problems for the Scheme
- Undertaking project work, as requested, including:
 - Reviews of asset allocation policy
 - Research into and reviews of Investment Managers
- Advising on the selection of new managers and/or custodians

INVESTMENT MANAGERS

As noted in this SIP, JLT IM has been appointed as Investment Manager and will sub-contract with underlying investment managers on behalf of the Trustees.

JLT IM's responsibilities include the following:

- Providing the Trustees on a quarterly basis (or as frequently as required) with a statement and valuation of the assets and a report on their actions and future intentions, and any changes to the processes applied to their portfolios
- Informing the Trustees of any changes in the internal performance objectives and guidelines of any pooled fund used by the Scheme as and when they occur
- Having regard to the need for diversification of investments, so far as appropriate for the particular mandate, and to the suitability of investments
- Giving effect to the principles contained in the Statement as far as is reasonably practicable

The underlying investment managers contract with JLT IM and therefore do not have any direct responsibility to the Trustees.

SCHEME ACTUARY

The Scheme Actuary's responsibilities include the following:

- Liaising with the Investment Adviser regarding the suitability of the Scheme's investment strategy given the financial characteristics of the Scheme
- Assessing the funding position of the Scheme and advising on the appropriate response to any shortfall
- Performing the triennial (or more frequent, as required) valuations and advising on the appropriate contribution levels

ADMINISTRATOR

The Administrator's responsibilities include the following:

- Ensuring there is sufficient cash available to meet benefit payments as and when they fall due
- Paying benefits and making transfer payments
- Investing contributions not required to meet benefit payments with the Investment Managers according to the Trustees' instructions.
